END TO END SOLUTIONS
Yarn, Fabrics and Apparel

Grupokaybee's global presence provides a unique network of collaboration for our clients.

We have the ability to source fabrics from multiple locations such as China, India and Indonesia ensuring cost effectiveness. Grupokaybee bridges the gap between buyers and manufacturers. As a leading manufacturer/converter and trading partner, we ensure orders are delivered on time and as per the actual required standard.

Our in-house creative team develops new yarn dyed cads and prints, keenly aware of emerging trends, to give clients a further advantage. Our team also maintains rigorous quality control which is the hallmark of our enterprise.

Grupokaybee offers an integral end to end one-stop supply solution to address every aspect of our client's requirements: sourcing, quality control, logistics and distribution. We provide our client with various range of fabrics starting from basic to much higher value added fabrications, with the tag of quality assurance and on-time delivery.

ABOUT US

History

Grupokaybee Chairman, Kumar Chand, first visited Japan in 1957 on behalf of his family business in India. Impressed by the discipline and work ethic of the Japanese, he decided to establish his own business in Japan. Today, more than fifty years later, Grupokaybee with a turnover of 350 million USD operates from 21 offices in 17 countries with a dedicated work force of over 400 professionals.

Kaybee through Decades

1958-1965

Mr. Chand establishes Grupokaybee in Japan in year 1958. Business in early 60s included export out of Japan, primarily to middle-east markets.

1965-1975

Grupokaybee extends its operations in Central and South America. Grupokaybee taps into vast potential that electronics from Japan provided in 70s.

1975-1985

Grupokaybee establishes itself in various Asian countries, including Hong Kong, South Korea, Taiwan and Singapore.

1985-2005

Diversified into Fiber, Apparel and Home Decor products, Grupokaybee introduces own brand of fabric to Latin American markets.

2005-till now

Grupokaybee continues to grow in diverse product segments, introduces own brand of Tyres, Miyuki and Steel to its product portfolio.

Vision

Grupokaybee offers its clients and suppliers optimal strategic locations, an efficient supply chain and wealth of expertise. Grupokaybee is committed to providing the best product options at the best prices.

OUR SERVICES

Sourcing & Product Development

With the unique advantage of an extensive network of trusted and approved suppliers across Asia, we provide seamless sourcing. Our in-house product development team meets specific client requirements. To create our own designs we are equipped with industrial leading CAD softwares. With this we can provide numerous designs to our buyer.

Factory Allocation and Manufacturing Control

We have access to extensive manufacturing facilities for a wide range of fabrics. The production process is executed and controlled by a team of experienced professionals and industry specialists that have an intimate understanding of client needs.

Order Management

The status of orders, shipping and product development is tracked on a daily basis to ensure progress is as planned and information is provided to clients, constantly, to update them on the execution of their orders.

Technical Support and Quality Assurance

We follow a rigorous quality management system according to the client specification. A dedicated quality control and technical team works closely with manufacturing factories. The international AQL standards are strictly followed throughout the process, starting from factory evaluation to final inspection.

Logistics

Our customers benefit from our decades of expertise in providing end to end logistics solutions for the movement and distribution of goods as well as handling complex export documentation. We pass on to our clients the economies of scale derived from our global operations providing efficient, smooth and economical logistics.

OUR APPROACH

Innovative Design and Development

Our presence in several countries gives us a unique opportunity to learn from best practices of several brands and suppliers. Our fabric division works closely with our partners to give our clients the advantage of constant availability of fashion fabrics. This enables our Design team to create multiple options for Product development keeping in mind market trends and customer-specific requirements.

Quality

Our dedicated quality control team works closely with manufacturing partners. We follow AQL quality standards from evaluation to final inspection to ensure quality is maintained at every stage. Critically, we educate our manufacturing partners to believe as we do, that, "Quality is the result of high intention, sincere effort, intelligent direction and skillful execution".

Cost Optimization

We are dedicated to strategic sourcing, cost effective manufacturing and optimal pricing. We are able to offer competitive prices due to cost effectiveness at every stage of the process.

Healthy Working Environment

We practice responsible sourcing. Our manufacturing facilities adhere to labor norms, including no child labor. Products are delivered from safe and hygiene environs.
